Signature of submitter:  Type your name here Dated 18 December 2022
(or person authorised to sign on behalf of submitter)

Submissions must be received by Waipā District Council
by 5pm on Monday, 19th December 2022

Plan Change 17 – M and J Briggs Further Submission (18 December 2022)

Submitter(s)	Sub Point	Topic	Provision	Support / Oppose	Reason for Further Submission	Decision Sought
Hogarth, Nicky (AML Ltd trading as Allied Concrete)	6.1	Water	Definitions	Oppose	Hautapu has an existing high groundwater table and allowing activities to discharge water on-site would make the existing situation worse.	Add the new definition of 'Dry Industry' as worded in Plan Change 17.
	6.2	Water	Section 7	Oppose		Amend Policy 7.3.4.10 as follows: <i>To ensure that activities within Hautapu Structure Plan are restricted to 'dry industry' activities due to infrastructure and groundwater constraints.</i>
	6.3	Water	Section 7	Oppose in Part	Agree that Rule 7.4.1.5(p) should be clearer, it should apply to the entire Hautapu Industrial Structure Plan Area. Concrete batching plants have the potential to have significant adverse effects on the surrounding environment and should be non-complying activities.	Amend Rule 7.4.1.5(p) as follows: <i>Notwithstanding Rule 7.4.1.3(f), the following activities are non-complying activities within the Bardowie Industrial Precinct Structure Plan Area and Hautapu Industrial Area 'Area 6' <u>Hautapu Industrial Structure Plan Area.</u></i> <i>i) Bitumen plants;</i> <i>ii) Incineration activities;</i> <i>iii) Concrete batching plants;</i> <i>iv) Relocated buildings.</i>
Waka Kotahi	12.1	Transportation	General	Support	If the SH1B / Hautapu Rd intersection is not able to cater for the additional traffic generated, PC17 would more likely result in traffic from future industrial activities using local roads, rather than the Hautapu interchange and expressway.	Undertake an assessment of traffic flows and intersection capacity to determine whether the existing intersection can cater for the additional traffic flows prior to 2023/2024 planned upgrade. If the intersection's capacity is insufficient, include a provision limiting a certain level of development prior to an appropriate upgrade.

Plan Change 17 – M and J Briggs Further Submission (18 December 2022)

Submitter(s)	Sub Point	Topic	Provision	Support / Oppose	Reason for Further Submission	Decision Sought
Hautapu Landowners Group	21.1	Rezoning Additional Land	Planning Maps	Support in Part	If the land between Area 6 and the Managone Stream is included in PC17, access should only be provided from Hautapu Rd (as far east as possible) and the existing Structure Plan amenity street tree planning, landscape amenity planting strip and building setbacks should apply.	<p>If the land between Area 6 and the Managone Stream is included in PC17, amend the plans and guidelines in Appendix S5 to identify the following:</p> <ul style="list-style-type: none"> • Access to the area via a local road through Area 6 which connects to Hautapu Road as far east as possible. • The extension of the existing amenity street tree planting, landscape amenity planting strip and building setbacks of the Hautapu Industrial Structure Plan.
