

The following three photos were taken from the same spot in the middle of the site (near the silage pit on the other side of the race to the left of the photo which can be seen on Google maps which is near the main stage). These photos show the flat usable ground, SNAs and the absence of neighbouring houses.

Looking south.

Looking south-west.

Looking west.

Looking north towards the top of the natural amphitheatre.

Southern end of the property looking north-west.

Looking north-east. The natural amphitheatre beyond the second fence line (with the silage pit to the right as a point of reference) with the main stage to the right of the photo.

Looking north-west showing the flat areas (and not houses beyond).

Looking south-west.

Main entrance looking into the site from the road. The mainstage is behind and to the left of the nearest pine trees on the left hand side of the photo.

Looking left from the Main Entrance.

Looking right from the Main Entrance.

Looking east. Location of the Main Stage at the bottom of the amphitheatre which will face to the left (looking up the hill). Note the topography and vegetation in the background which screens the site (including the stage) from the road and the neighbouring properties on the other side of the road.

Looking north from the approximate location of the Main Stage looking up the amphitheatre.

Looking south from the race adjacent to the silage pit (Main Stage located to the left of the photo on the other side of the race).

Looking south-west (Mainstage behind where photo taken from).

Parking area (1km within the site) located at the northern end of the flat areas.

Parking area to the northern end (looking north-west).
